

Policy ideas

- How to better support youth experiencing suicidal ideation.
 - Funding of youth-specific programming
 - Support for peer-led programming
 - Improve programming in schools
- How to better support rural Oregonians experiencing suicidal ideation.
 - Funding for rural-specific programming
- How to reduce stigma on suicidal ideation.
 - Public education campaign
 - Support for health care worker conversations with patients
- Barriers to suicide prevention support.
 - Funding
 - DBT accreditation (Andrew White suggestion)
 - Interventions by health professionals
- Current community safety protocol across this state, including at hospitals and behavioral health facilities, and recommendations for improvement of the protocol.
 -
- Locations and events most targeted in community safety threats.
 - Data collection/dashboard to show hot-spots in real time
- Rates of success for extreme risk protection orders and barriers to implementation and capacity for police stations or other entities to implement voluntary surrender or holding of firearms.
 - Improved training for law enforcement and DA's
 - Expansion of who can apply for an ERPO
 - Public education campaign
 - Use of Byrne SCIP grants re ERPO technical assistance, etc. (talk to CJC)
- Barriers to implementing best practices for community safety and suicide prevention.
 - Creation of statewide office of gun violence prevention
 - Continued funding of community violence intervention programs
 - Tax on firearms to help fund this
 - Encouraging safe storage of guns in homes/cars
 - Collaboration with gun dealers to encourage community safety and suicide prevention efforts (messaging, etc.)
 - Safe business practices by gun dealers (including secure inventory storage)

- Do we need better data?
- How domestic violence is a risk factor for community safety threats and suicide.
 - All things listed related to ERPOs (above) for other types of protective orders
- Risks to first responders.
 - [Do we have any first responders on task force? We should hear from them about what they need.]
 - Support for mental health of first responders to reduce suicide risk
 - Improved crisis-intervention protocols/models
